Steamed half and half coffee, eu frappuccino, bar caffeine ut a spoon cappuccino, blue mountain grounds sweet crema flavour.

PROJECTS

BREW HOP

[DEMO](#) [CODE & DETAILS](#)

The Brew Hop project is a full-stack web application designed to help the AeroPress coffee community share recipes and rank the best ones. It features a clean, modern design with a dark header and light body. The main page displays a list of recipes, each with a thumbnail image, title, and a brief description. Users can search for recipes by name or filter them by category. The application uses React for the front-end and Express with MongoDB for the back-end.

Express | MongoDB | Vanilla JS

Discover Your Elected Officials

Knowing your elected officials is important

The Discover Your Elected Officials project is a simple web application that allows users to find their local elected officials. It features a dark header with a call-to-action button and a light body. The main page displays a map of the user's location with pins indicating the locations of their elected officials. A modal window provides detailed information about each official, including their name, party, and contact information. The application uses jQuery for the front-end and PHP for the back-end.

Discover Your Elected Officials

Name: Barack Obama

Office: President of the United States

Party: Democratic
